Merlyn called me yesterday about this and I have yet to return his call. I was just about to do so when I saw this. I have to say that I thought I heard Merlyn say that LRAPA would participate in ADR but not if it included the permit process.

Paul,

You were at the meeting on the 14th; what was your impression of Merlyn's comments?

## Ted:

Your letter does not accurately characterize my part of the discussion in our LRAPA-EPA-DEQ meeting on September 14, 2009. I was not in a position to declare at that time whether or not LRAPA would participate in an ADR process related to the permit application and I was careful not to do so .

Lisa,

Attached is a letter responding to OTA request in facilitating the use of ADR related to the Seneca Plant. Merlyn Hough and Thomas Woods are copied on the letter. You should receive a hard copy this week. Feel free to call me if you have any questions or comments.
